PROTOXIDE PAINT, for Stucco Fronts, for Iron, Brick-work, and Wood. Manufactured only by CHARLES FRANCIS and SONS, Cement Works, Nine Elms.

ATKINSON'S CEMENT.—WILLIAM WOOD, Jun., Manufacturer of Roman, Portland, and Bath Cements, Blue Lias Lime Works, CHURCH STREET, NORTHERHITHE, Sole Consignee for Atkinson's Cement.—Grey Stone Lime Depôt. Cement Chimney-pots of every pattern.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architraves, and other mouldings, in the application for which purpose it cheeks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and fleet-street, Liverpool.

PORTLAND CEMENT.—Testimonials received from all quarters prove this CEMENT to possess the rare property of withstanding the severest frost, and to be consequently superior to every other for hydraulic purposes, such as the Setting and Lining of Reservoirs, Cisterns, Baths, Fishponds, &c. For External Plastering and Ornamental Castings, it requires neither Colour nor Paint: it never vegetates, and will carry from three to four times its own bulk of sand.

Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT, solely Manufactured by W. ASPDIN, Son of the Patentee. This Cement has been proved, for upwards of twenty years in the Thames Tunnel, to resist the action of water; it is stronger in its remembrance qualities, harder, and more durable than any other description of Cement; it does not evaporate, crystallize, or turn green; nor is it affected by any atmospheric influence whatever, the climatic vicissitudes make the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall.

REMOVED FROM 8, MAIDEN-LANE TO 28, STEEL-YARD, UPPER THAMES-STREET.

TO ARCHITECTS, ENGINEERS, BUILDERS, Masons, Plasterers, and Painters, Merchants, Shippers, and the Public in general.

JOHNS and CO.'S PATENT STUCCO CEMENT, for outside Plastering, perfectly resembles stone, utterly resists Wet—does not dissolve by Damp—wants no Paint—never cracks or blisters—adheres to any substance without previous preparation—is not affected by Frost or Heat—may be exported to every Climate—it improves by Age—it is the only Cement that is a prompt and perfect remedy for internal Damp Walls—it is very cheap, and very easily worked.

Where sales may be obtained.

JOHNS and CO.'S PATENT STONE COLOUR STUCCO PAINT, expressly for Painting over Edges and of Stones that have been covered with Roman or other Cements, and which have become discoloured. This PAINT having an affinity for Stucco, binds itself with it, stopping the suction, thereby rendering the Wall proof against Weather, and in the harsh producing a pure stone-like effect, producible by no other Paint whatever; it is cheap, and may be used by any Painter in any climate, even in the most exposed marine situations.—Specimens may be seen, and a Prospectus fully describing the Cement and its mode of application, may be had of Johns and Co., at 28 Steel yard; or the Manufactory, Plymouth.

MARTINS FIRE-PROOF AND ORNAMENTAL CEMENT.

CAUTION.—Messrs. STEVENS and SON Patentees, beg to caution their friends and the trade generally against confounding this invaluable Cement with others, erroneously said to be of the same description. S. and S. pledge themselves that MARTINS CEMENT is totally dissimilar in composition and manufacture from every other, and being a neutral compound, is not only free from chemical agency upon any substance with which it may come in contact, but completely resists the action of the strongest acids. They feel it a duty to direct attention to the following properties, which it exclusively possesses:—

1. It regulates and secures the hardness of stone.

2. Unlike other internal cements, its hardness is uniform throughout its entire thickness.

3. Its surface (which may be made equal to that of the finest marble) NEVER THROWS OFF ANY SALT, and will receive paint in four days, without peeling, when put upon the work.

It is peculiarly adapted as an internal stucco for walls, cornices, architraves, mouldings, and enrichments of all kinds, to all of which purposes it has been extensively applied by Mr. Thomas Cubitt, on the Grosvenor estate, &c.

For the above purposes it possesses great advantages over woods, being more economical and durable, resisting fire, damp, and vermin.

For the floors of halls and fire-proof warehouses, its lightness, durability, and uniform surface give it an immense advantage over stone, being, at the same time, much more economical. The most satisfactory references can be given. To the trade and the Patentees, Plaster of Paris and Cement Manufacturers, 1st, DRURY LANE. Agent for Liverpool and Manchester, Mr. R. PART, 28, Canning-place, Liverpool.

EMERSON'S PATENT CEMENT PAINT. —This VALUABLE AND ECONOMIC PAINT is ready for use, is simple in its application, and only ONE-SIXTH the cost of oil paint; for beauty it is pre-eminent over all other materials used on the fronts of houses, giving the exact appearance of FINE CUT PORTLAND OR OTHER STONE; it can be used at once on fresh Roman cement or other plastering, and is particularly calculated for country houses, villas, or gate entrances that have become soiled or dingy, which can be at once beautified in any weather, at a mere trifling cost. Sold in casks of 1 and 2 cwt. at 8s. and 14s. each.

PATENT MINERAL PAINT.

A brilliant black paint, invaluable as a coating for RIDER SIDES AND BOTTOMS, also for all kinds of WOOD or METAL work, or ship and boat building, dock yards, spouts, and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influence and decay.—requires no preparation, and will dry in a few hours.—Price 3s. per gallon.

PATENT ASPHALTE ROOFING AND SHEATHING FELT.

A large supply of the best quality, direct from the Manufactory, at low prices, for home and exportation.

SNOXELL'S PATENT SAFETY REVOLVING WOOD SHUTTERS, Manufactory, 96, REGENT-STREET and 181, CHANCERY-LANE. Patent sealed on the 4th day of February, 1843, for Fourteen Years, for Improvements in Revolving Shutters of WOOD and IRON, consisting of Six Methods of Hanging and Lowering Shutters, without Weathering, and Two for Hanging and Sheathing the Edges of Wood Laths with Iron.—The Patentee having fitted up some hundreds, will feel pleased in forwarding the Testimonials of Architects, Principals of large Establishments, and others, having them now in use, which fully guarantees the Patentee in stating they are beyond dispute superior to any other Revolving Shutter for durability, security, and simplicity, without the use of cog-wheel work and screw gear, or any other complicated machinery employed by other makers.

BUNNETT and CORPE, ENGINEERS, Patentees of REVOLVING IRON AND WOOD SAFETY SHUTTERS, and of ORNAMENTAL METALLIC SASH BARS, MOULDINGS, &c., IN BRASS, COPPER, ZINC, &c.

Sole Licensees for the manufacture of MARVIN'S PATENT DIAGONAL CHATINGS, for Areas, Balcony Floors, &c.

The Patent Revolving Shutter and Corpe's Patent Revolving Iron shutter are sufficiently established by their most extensive use, and the fact of their having superseded all others; every improvement suggested by practical skill and experience have been adopted, and the prices greatly reduced, to render them the CHEAPEST, as well as BEST IRON SHUTTERS.

B. and C. have also made great (acknowledged) improvements in Revolving Wood Shutters, which are fitted up with proper metallic bottom that caused rust (without which no shutter can be safe or durable), and are worked by the patent rasping gear as for Iron Shutters, or counterbalanced in a new or peculiar way, and are wound up or down with the greatest ease, without the use of objectionable loose lines. A comparison with any others, as to quality and price, is respectfully solicited.

A modification of the above, working vertically, is especially adapted for Bay and Oriel Windows.

The prices of the Patent Metallic Sash Bars, &c. have been revised, and where practical, reduced; Shop Fronts, &c. are completely fitted and fixed in a superior style, either plain or ornamental, and with strong drawn moulded sideboard plates handsomely engraved, also completely glazed with best plate glass.

The Patent Diagonal Wrought Iron Grating will be found a great consideration for areas at shop fronts in shop and warehouse floors, and for balcony floors, as it does not obstruct the light, yet admits of ladies walking over or standing on the same.

ECONOMY!

STEPHENS'S DYES for STAINING WOOD, AS A SUBSTITUTE FOR PAINT, for decorating Churches, large Public Rooms, and Theatres, as well as Private Dwellings. When economy in expenditure of material and time is of importance, these Dyes will be found of the greatest advantage, as they give a rich colour to plain woods, while they reflect all the beauty of the natural graining, which is so superior to imitations by art, and, at the same time, avoid the disagreeable smell and deleterious consequences of paint. The dyes or stains are prepared and sold by HENRY STEPHENS, 84, Stamford-street, Blackfriars-road, London, in bottles of 6d. and 1s each, and at 10s. per gallon. They may also be obtained in powder at 8s. per pound, which dissolves in water to form the liquid, and one pound will make one gallon of stain.

Sold also at the office of "The Builder," 2, York-street, Covent Garden, London; and at HOPKINS and PURVIS, Colourmen, Great-street, Soho, where specimens may be seen.
